

### Standing Seam Roof Air Terminal and Base

Kingsmill **Standing Seam Roof Air Terminals and Bases** are used with Standing Seam type roofing sheets. They are suitable for use with 8mm diameter aluminium conductors. Connection is by means of a clamp on the mast leg (*shown below*).

| ROD LENGTH (A) (mm) | ROD DIAMETER (mm) | CONDUCTOR DIA + MATERIAL | WEIGHT (kg) | PART No.   |
|---------------------|-------------------|--------------------------|-------------|------------|
| 1000                | 12                | 8mm Aluminium            | 0.23        | KM97121009 |
| 2000                | 12                | 8mm Aluminium            | 0.08        | KM97122009 |

**Material:** Aluminium Air Terminal/Zinc Plated Steel Base
